All pillow speakers feature 8ft. cable length. Please specify if you have additional requirements.

Analog (APS) – Traditional pillow speaker with basic button operation.

Digital (DPS) – Digital pillow speaker that uses existing cross-room wiring. DPS features channel up and down, instantaneous television on/off, and closed captioning.

DirectAccess (DA) – Digital pillow speaker functionality along with a 0 – 9 keypad for direct channel access, digital volume and enhanced case strength.
