THE FULLY INTEGRATED RESIDENT SAFETY SOLUTION

EMERGENCY CALL/NURSE CALL, WANDER MANAGEMENT, FALL MANAGEMENT,
SAFETY & SECURITY WITH THE ARIAL[®] WIRELESS NURSE CALL SOLUTION

SAFE. SECURE. EFFICIENT.

Proven safety for your residents and community

For more than a decade, the Arial® system has earned the trust of over 1,500 senior living communities as a reliable and easy-to-use emergency call and nurse call system.

Now with the introduction of Arial 8, this proven solution enables communities to seamlessly integrate the entire range of resident safety and building security systems to create a single, powerful tool to improve care, reduce risk and raise staff efficiency.

What sets Arial apart

Technology you can trust

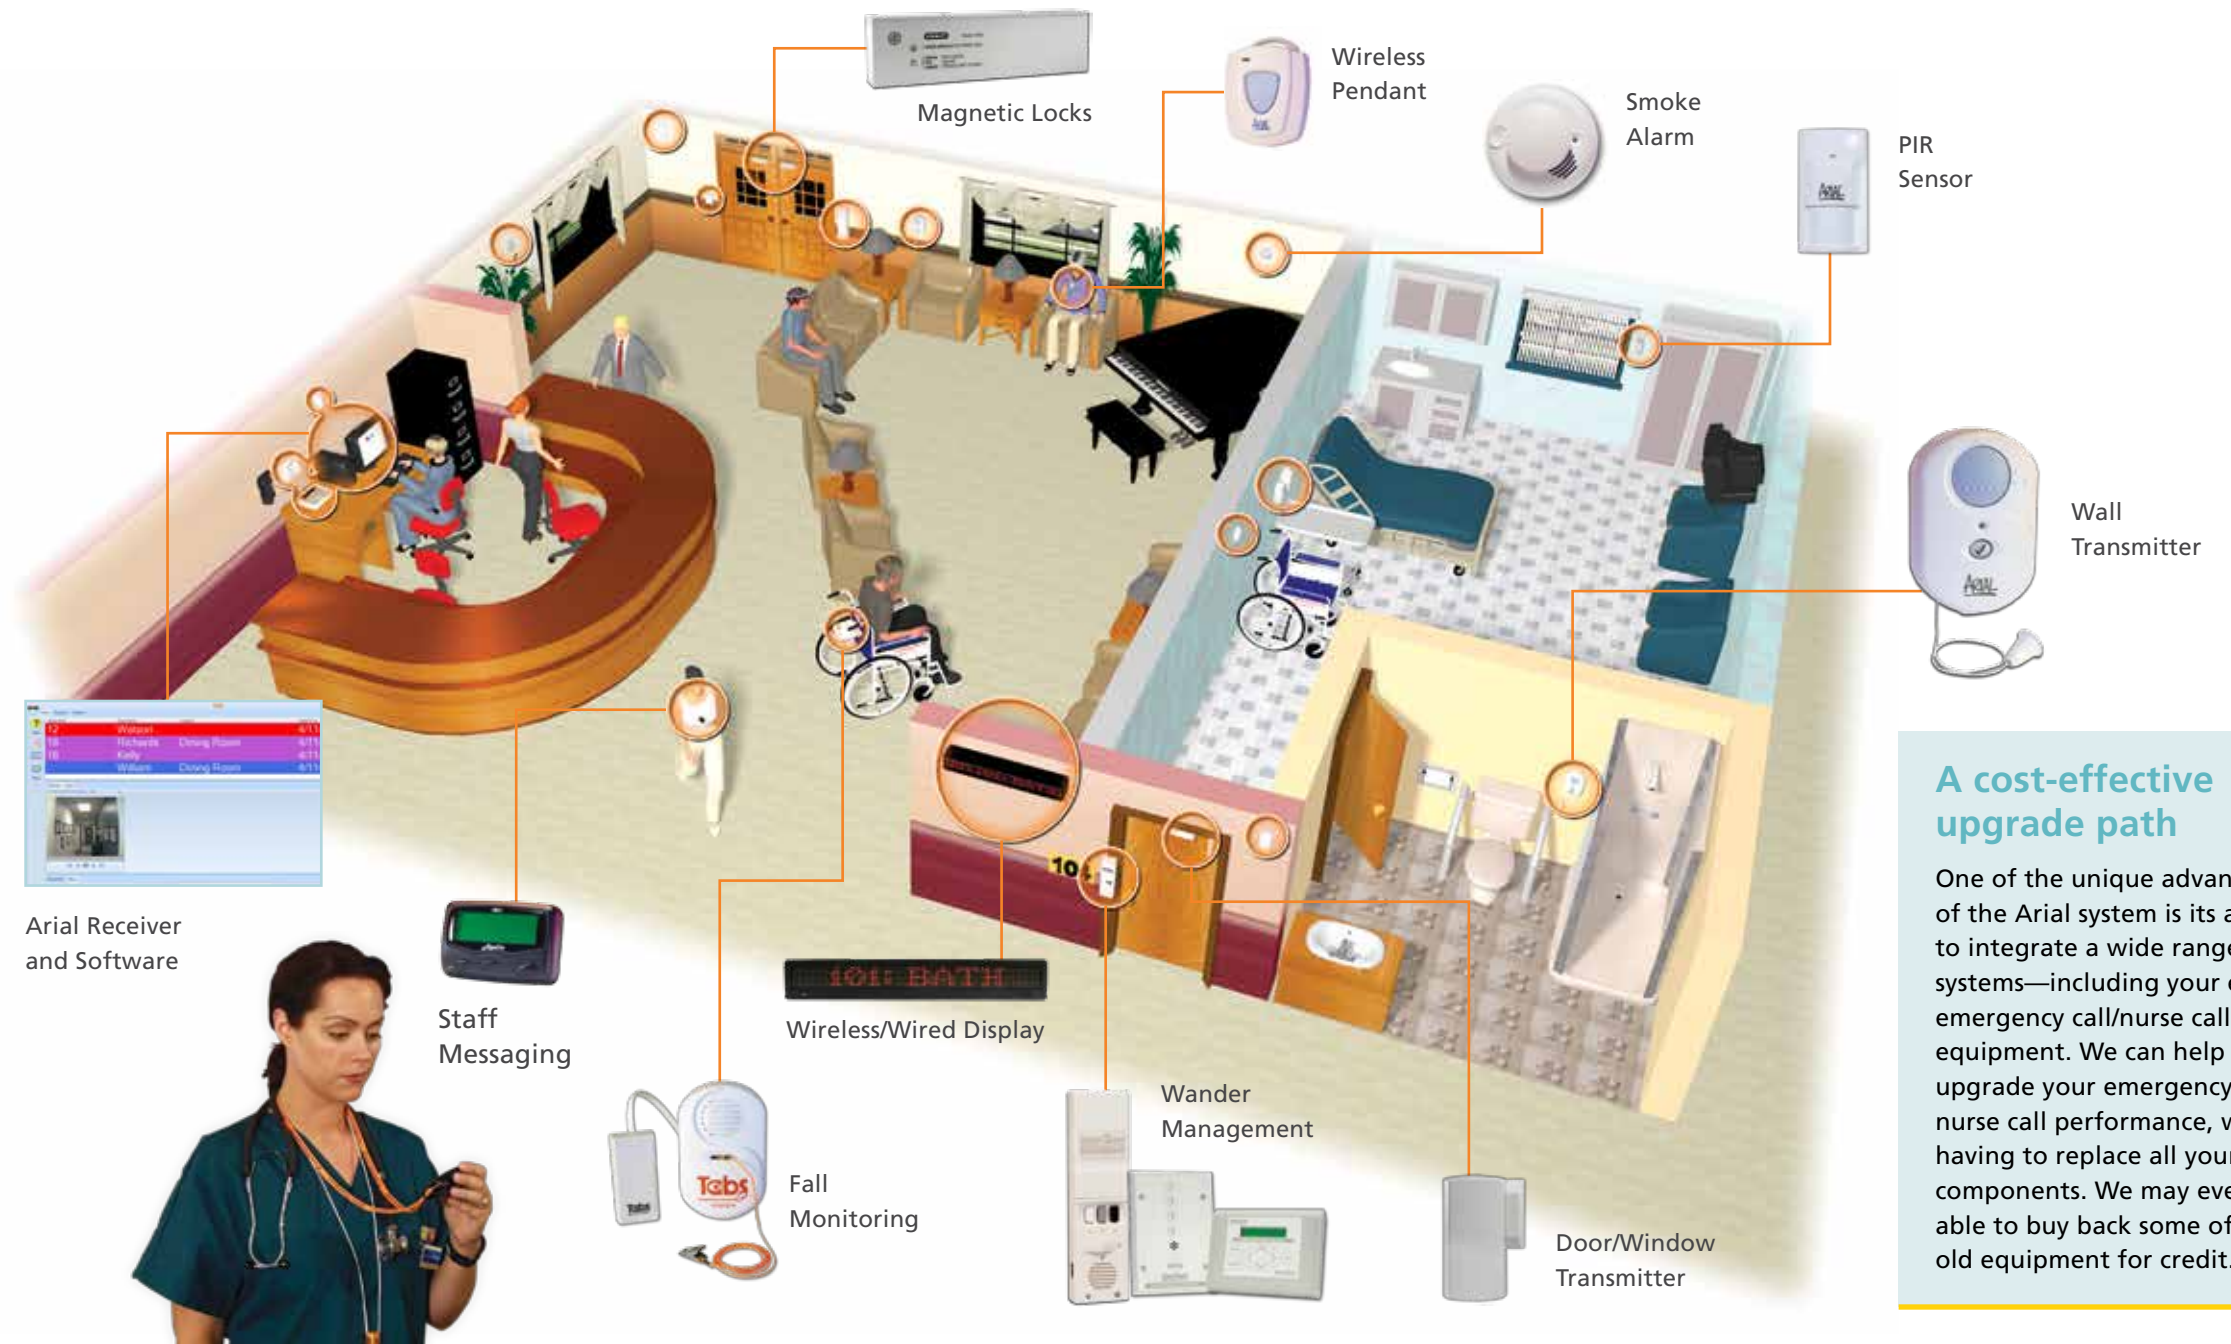

The Arial system's wireless technology and IT infrastructure are built on the leading industry standards. You get not only top level performance but multiple options to meet your particular resident safety and security needs.

Direct from us, direct to you

The Arial system is sold and installed directly by STANLEY Healthcare. Our network of professionals is unmatched in the industry—all our installation and support experts are direct employees of the company. We consult with you closely at every stage to design, install and service a custom solution for your unique needs.

Value for the long term

The Arial system continues to repay your investment year after year. We have never abandoned Arial customers, or forced them to upgrade. Many of our existing customer relationships stretch back more than a decade, and we'll be there to support you for the long term, too.

A cost-effective upgrade path

One of the unique advantages of the Arial system is its ability to integrate a wide range of systems—including your existing emergency call/nurse call equipment. We can help you upgrade your emergency call/nurse call performance, without having to replace all your components. We may even be able to buy back some of your old equipment for credit.

Protection from one end of your community to another

Emergency Call/Nurse Call Reliable wireless call performance

Enable residents to call for help from their room or from anywhere in your community.

- Wireless infrastructure for easy installation, and scalable for quick and easy expansion.
- Portable pendants with resident locating ability.
- Multiple call point options for resident rooms, bathrooms and common areas.
- Full device supervision, with automatic alerts for devices with a low battery or missing from the system.

Arial Software The right information at the right time

The Arial 8 software gives individuals across your organization the information they need to do their jobs efficiently and effectively.

- Visually driven user interface, fully customizable at each workstation.
- Display call events, system alerts, community maps, CCTV images and resident database.
- Event notification via remote stations with audible annunciation, pagers, display signs, phone integration, e-mail, and text message.

IT Infrastructure Scalable, network-friendly IT

The Arial system is easily deployed and managed in any network environment.

- True client/server structure for flexible deployment, including server virtualization.
- Supports up to 25 workstations with customizable views for all staff members and areas of your community.
- Industry standard SQL database – export to a variety of programs (Microsoft® Excel® software, etc.), with support for custom reports.
- Browser-based reports engine allows for report viewing from any portal.

System Integration One system, end-to-end security

Integrate a full range of safety and security applications, and manage them all through a single user interface.

- Wander management – protect residents at risk of wandering.
- Fall management – choose from any of STANLEY's market leading solutions.
- Access control – control access to perimeter exits with magnetic locks, keypads and more.
- Facility safety – monitor windows, doors, smoke alarms, temperature sensors and most of your existing devices with an alarm output.

The STANLEY Healthcare Approach

Consultation

We work directly with you to fully understand your needs.

Turnkey Solution

We build an end-to-end solution that precisely meets those needs.

Proactive Support

We help you maintain and improve your system for years to come.

Thirty years of experience at your service

We bring unmatched knowledge and expertise to resident safety and security, based on our more than 30 years of serving the senior care industry. When you choose STANLEY Healthcare, you're choosing a company that serves more than 12,000 senior living organizations worldwide, and counting.

About STANLEY Healthcare

STANLEY Healthcare provides over 5,000 acute care hospitals and 12,000 long-term care organizations with enterprise solutions that transform safety, security and operational efficiency. The STANLEY Healthcare solution set enables customers to achieve organizational excellence and superior care in five critical areas: Patient Safety, Security & Protection, Environmental Monitoring, Clinical Operations & Workflow and Supply Chain & Asset Management. These solutions are complemented by consulting, training, implementation and integration services. STANLEY Healthcare is proud to be part of Stanley Black & Decker, Inc.
